

Maryland Medicaid EHR Incentive Program: eCQM Reporting

In this user guide, you will find information about eCQM reporting requirements and processes for the Maryland Medicaid EHR Incentive Program. eCQM reporting for the EHR Incentive Program is enabled by the CALIPR tool, which is accessible via the CRISP Unified Landing Page (ULP). As an added benefit, the CALIPR tool can be used by organizations who are reporting manually for Meaningful Use.

General Information

Eligible Professionals (EP's) are required to submit eCQMs via CRISP for annual reporting. EP's must report six (6) eCQMs relevant to their scope of practice out of fifty (50) available eCQMs. Please reference the full list here: <https://ecqi.healthit.gov/system/files/EP-EC-MeasuresTable-2018-05-v4.pdf>.

In addition to submitting eCQMs on CALIPR, EP's must also attest to their submission on eMIPP by selecting the checkbox in the "MU-Clinical Quality Measures Set" tab of the Meaningful Use section. See below relevant dates for submitting eCQMs for the EHR Incentive Program:

Measurement Period: 1/1/2019 – 12/31/2019

Reporting can begin: 1/17/2020

Final submission deadline: 3/17/2020

User Credentialing

CRISP will provision access to the CALIPR tool within the ULP for all EP's as assigned by the EHR Incentive Program. All users will receive ULP credentials if they do not already have credentials. For users who already have ULP access, they will simply see a new tab at the top, called CALIPR.

CRISP

Submitting eCQMs

EP's may submit eCQMs by submitting a QRDA III file that has been exported from the electronic medical record (EMR) or by manually entering numbers for calculation of measures. Follow the steps below to submit your eCQM data.

QRDA III Submission

1. Log into the CRISP Unified Landing Page by visiting <https://ulp.crisphealth.org/>.

The screenshot shows the 'Sign In' section of the CRISP Unified Landing Page. It includes a header with the CRISP logo and 'Unified Landing Page' text. Below the header, there are input fields for 'Email Address' (containing 'sheena.patel@crisphealth.org') and 'Password'. A 'Sign In' button is located below the password field. A 'Forgot Password' link is at the bottom left of the sign-in area. In the top right corner, there are links for 'Sign Out' and a user profile icon.

2. Once logged in, click the CALIPR tab

The screenshot shows the main dashboard of the CRISP Unified Landing Page after a successful login. The top navigation bar includes links for 'HOME', 'CALIPR', 'PATIENT SNAPSHOT', 'PROMPT', 'HEALTH RECORDS', 'EMERGENT IMAGING', 'PDMP', and 'IMAGING-WORKLIST'. The 'CALIPR' tab is highlighted. Below the navigation bar, there is a 'Patient Search' section with input fields for 'Last Name(Required)', 'First Name(Required)', 'Date Of Birth(Required)', and 'SSN'. A 'PATIENT SEARCH' button is on the right. Below the search fields, there is a 'Gender' dropdown menu set to 'Male' and a 'SSN' input field. At the bottom, there is a 'Usage Terms and Conditions' section with a checkbox and text.

3. Click "Import Data"
4. Click "Choose file" and select your QRDA III file
5. Click "Upload Document"

Manual Entry

1. Log into the CRISP Unified Landing Page by visiting <https://ulp.crisphealth.org/>.

This screenshot is identical to the one above, showing the 'Sign In' section of the CRISP Unified Landing Page. It includes the header with the CRISP logo, input fields for 'Email Address' and 'Password', a 'Sign In' button, and a 'Forgot Password' link.

2. Once logged in, click the CALIPR tab

3. Click “Enter Data”
4. Type the NPI and measurement period you wish to enter data for. Please note, each time period will create its own results set. Entering data for the same time period will overwrite the previous entry. For example, entering data for 1/1/2019-3/31/2019 and 1/1/2019-12/21/2019 will create 2 result sets.
5. Click “Go to Measures”
6. You can scroll through measures or search for a specific measure by CMS code or keyword.
7. Choose one measure at a time to enter data. Please note one measure may have multiple population data sets (e.g. more than one numerator). All fields must be completed.
8. Enter relevant data for initial population, numerator, denominator, and any exclusions.
9. Click “Save”. The measure you completed will be bolded in the list.
10. You can go back and edit any measures for a given measurement period at any time during the submission period.
11. To enter data for a different NPI, click “Select Provider and Period” and repeat steps 4-10.

View manually entered data

You have the ability to view data that has already been entered, and can export for recordkeeping purposes.

1. From the main page of the CALIPR tab, click “View Data.” If you have just entered data, and would like to view the results set, click “Home” which will take you to the main page of the CALIPR tab.
2. Select the appropriate NPI
3. All result sets for that NPI will be displayed. Choose the one you wish to view results for and click “Go to Set.”
4. You must search for each measure. You can choose multiple measures to export together.
5. Choose the measures you wish to export and then click “Export.” You have the option of exporting QRDA III or XLS (Microsoft Excel) files. QRDA I is an option but irrelevant for the purposes of EHR Incentive Program reporting for EP’s.

CRISP

Troubleshooting

If you are experiencing any issues with logging in or submitting data, please contact the CRISP Support team by emailing support@crisphealth.org or calling (877) 952-7477.
